

Save Nature and Cultural Heritage sites

TO : JAPAN NATURAL CULTURAL FOUNDATION (JANC)

APPLICATION

DATE _____ / _____ / _____ / (yy/mo/day)

Applicant _____

I(We) will donate as follows to support the purpose of the Foundation. For any funds I do not designate, I accept that they will be appropriated for the subsidies, protections and international heritage sites that the Foundation supports. I accept that the administrative expenses are included in my donation for the Japan Natural And Cultural Foundation (JANC). Please fill in the donation amount below:

(Japanese yen or U.S.Dollars in case of U.S.Dollars minimum amount more than US\$10,000)

--	--	--	--	--	--	--	--	--	--	--

If you would like a stone pillar, please fill in the desired name or emblem etc

--

The materials selected for Heritage Post Lantern construction are chosen for their ability to resist the natural weather conditions. Over time, the posts will age. The association maintains and manages these stone columns, but if aging becomes noticeable, the post may require reconstruction, at market price after a consultation. In the case of natural disasters, intentional collapse etc. the association is not able to repair, manage or maintain the posts.

Construction of the posts will be planned in three phases. Phase one is planned for completion in the year 2020. Words or emblems displayed on the desired pillar should be suitable and appropriate for placement in a World Heritage Site. Therefore, the wording or coat of arms which will be displayed needs to be pre-approved by the association.

Stone pillar specifications may be changed without notice. No location or other special requests are accepted. Those representing social movements, as groups or individuals, will not be accepted.
